

Introducing the Freshworks Marketplace

Swipe to explore how it can
help your business

Discover, try, and buy apps

One stop shop for Freshworks customers to find apps that work seamlessly with their Freshworks products for all their integration, automation, and customization needs

Build, host, and promote apps

Partners can build apps for various product integrations or for unique customer needs and host them on the Freshworks Marketplace.

Choose apps from multiple categories

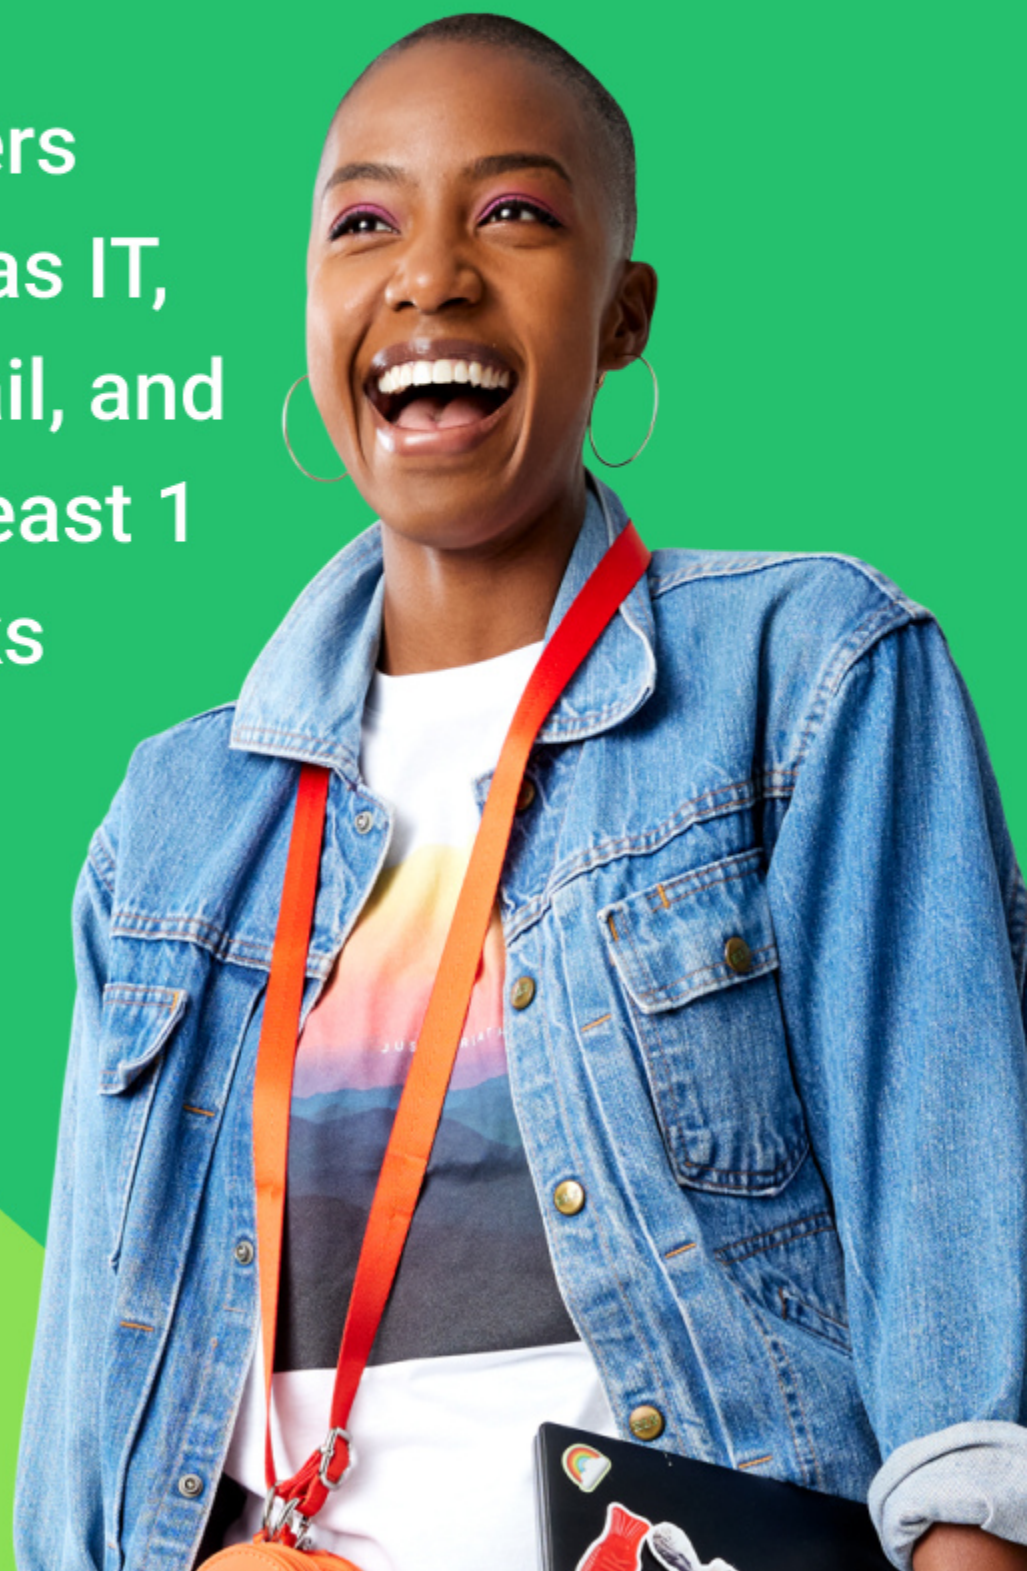

More than 1200+ apps spread across categories such as agent productivity, asset and incident management, CRM, sales and marketing, collaboration, issue tracking, and many more.

Customers spread across industries

30,000+ of our customers
across industries such as IT,
Business Services, Retail, and
Manufacturing, use at least 1
app from the Freshworks
Marketplace

“The Freshworks Marketplace is great because a lot of applications that we want to integrate are readily available to us. Two weeks back we launched the FinChoice application on the Google Play Store, we wanted to pull the reviews from their interface and the app for that was readily available on Marketplace. We were able to install the app and go through the setup quickly, so that was really great!”

- Farrah,

Digital Experience, FinChoice
